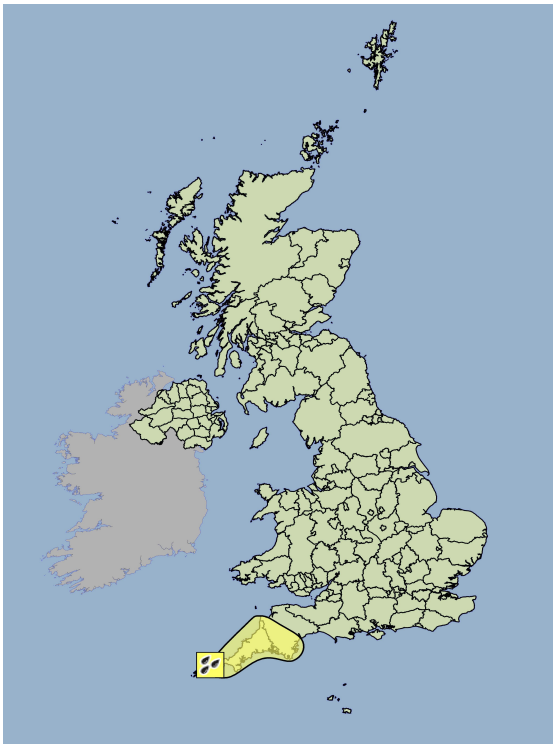
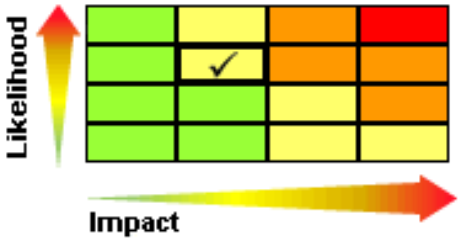
National Severe Weather Warning Service





Chief Forecasters Assessment
An area of thunderstorms is currently moving westwards close to the south coasts of Devon and Cornwall. These will tend to fade, but as temperatures rise, so there is the potential for some heavy showers or thunderstorms to develop during the afternoon and early evening. Where these occur there is a risk of 20 mm of rain within an hour.

The Met Office have issued a **Yellow Warning** of **Rain**

Valid from **11:00 on Thu, 24th Jul 2014** until **21:00 on Thu, 24th Jul 2014**

Further heavy showers and thunderstorms are likely to develop across parts of Cornwall and south and west Devon during today, eventually dying out again during the evening.

These showers are likely to be slow-moving and isolated, hence most places will miss them, but where they do occur there is the potential for some heavy rain and the public should be aware of the risk of localised surface water flooding.
